The County provided School District certiorari data which the District can use as a rough guide. Over the five years 2005/06 through 2009/10, the certiorari for the School District ranged from approximately 0.5% (2009-10) to 1.9% (2008/09) of the tax levy.

There have been a series of complaints regarding the mixing of recyclables with regular trash. The problems appear to stem from the use of regular trash cans for recyclables and incorrect separation of recyclables. There is a general lack of knowledge about what and how to recycle.

Present: Commissioner William Scaglione
Commissioner Douglas Augenthaler
Commissioner Mary P. Giordano
Frank D'Elia, Attorney for the District

Minutes from the June 9 meeting were accepted.

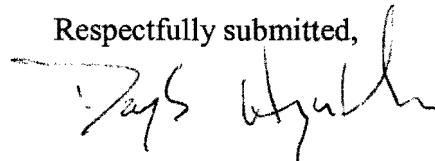

The 2% property tax cap was discussed. The District has a somewhat unique problem with the cap. Administrative expenses run at about 1.5% of total District expenses with the remaining 98.5% comprised of the collection contract. The current contract calls for a 4% increase in 2012. Although we believe there will be sufficient reserves for 2012, over the long term, there are not enough administrative costs to cut to maintain a hard 2% cap, unless the contract is limited to 2%, which could result in service cuts. The cap legislation will be reviewed and language defined to better understand how the cap will effect District operations.

Mail has been arriving late at the Post Office Box, resulting in nearly late payments. As the District cannot use credit cards, it was moved and approved to pay the estimated phone bill for up to 6 months in advance, in order to avoid late fees.

Various invoices were paid.

Various other matters of interest were discussed and disposed of; there being no further business the meeting was adjourned. The next meeting is to be held on July 14, 2011.

The budget process was discussed. The implications of the 2% property tax cap are still not completely clear. The current understanding is that the Board of Commissioners can approve a tax increase in excess of 2% with a 2/3 vote of the Board. Additional information necessary for the budget was identified.

Traffic issues on Irma Avenue were discussed with Meadow Carting representatives. It was agreed that collection on Irma Ave will be moved to later in the day as the traffic flow to the railroad station is very busy early in the morning, creating safety issues for the collection crew and residents.

Mr D'Elia received a letter granting an extension to answer to the Iroquois Gas suit until January 17, 2012.

Commissioner Scaglione suggested that the District make up a calendar with key dates to be updated each year as a planning method. The suggestion was approved by the Commissioners unanimously.

There was no update from NYS regarding the District's PIN for the tax Levy Limit under the recently passed tax cap.

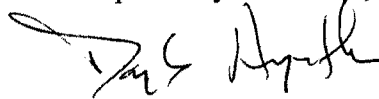

Mr. Matos requested clarification regarding special move-out and move-in pick-ups as per the contract. There have been several examples of move-outs with requests for service on multiple consecutive collection days. He was advised that the contract only allows for one move-out and one move-in pick up. Additional service can be negotiated by the resident with a contractor of their choosing and at their own cost.

Mr. Matos then inquired about the volume of material allowable for move-in and move-out collections. As the District rules have no specific limits, the commissioners unanimously agreed to create a standard for these special collections. Minutes from the November 23 meetings were reviewed and approved.

Materials for the election were delivered and election laws reviewed by Mr. D'Elia. It was agreed that 150 additional ballots would be produced before the election, with additional copies to be made, if needed.

On November 30, the Town of North Hempstead emailed a letter to the District regarding the longstanding suits filed by Keyspan and Verizon, which were lost earlier this year. The letter disclosed that the judgment against the District was approximately \$893,000, requesting payment the following day, or an agreement to participate in a municipal financing (Bond Anticipation Note – BAN). The letter contained no supporting documentation for the bill.

The District expressed its extraordinary displeasure with the Town for withholding the details of the judgments for several months as the District prepared its budget. As a result, the District was effectively forced to participate in the BAN offering.

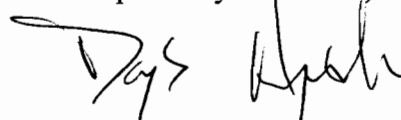

Upon request, the Town delivered the appropriate documentation for the judgments. Upon examination, it became apparent that the judgment did not include the most recent years and further judgments of undetermined amounts should be expected.

The Town expects that the judgments against the garbage districts will eventually be reimbursed by Nassau County under the "County Guaranty". The Town has already won a suit against the County with regard to the Verizon suit and expects a similar result in a similar action regarding the Keyspan suit. There is a meeting scheduled with Town officials on Dec. 9 to review this issue in greater detail.

Minutes from the December 8 meeting was reviewed and approved.

Paul Oleksiw was elected to a three year term with 455 votes of 465 valid votes cast. Ten other individuals received one vote each.

The Commissioners attended a meeting with the Town officials regarding the judgments against the Town and Districts in the Verizon and Keyspan suits. In addition to the amounts already identified by the courts, additional judgments with regard to 2008 through 2011 are expected to follow at some undefined point. The District's share of the legal fees to date is \$53,000.

Town officials advised that they had requested that the utility properties be removed from the tax rolls earlier this year, but at this point do not have verification that this has been done.

The Town continues to expect that the County will ultimately repay the amounts paid by the District under the "County Guarantee" and in fact one of the Town's suits against the County has been decided in the Town's favor, although the stressed County finances make it impossible to know precisely when that judgment will be paid.

A PILOT check in the amount of \$12,332.25 was received from the Town of North Hempstead.

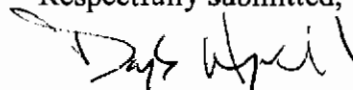

An "Electronic Filing Notice" from NY State was received and will be forwarded to Dave Brackett, the District's auditor.

Renewals for outstanding performance bonds were received and will be dealt with at the first January meeting.

The annual flyer to residents has not been received and Meadow Carting was called to make sure the flyers are sent.
